Subject: U&O FIP

Carl,

I was unable to catch up with you yesterday, so I wanted to give you a quick update on the FIP and outline some needs. The meeting yesterday was good, we should have a draft to route later this week or early next week. We are going to use the sharepoint site and concurrently route the FIP through the region and HQ. Chris D. is working on the ICR, which he plans to have complete early November. We have a call with Greg and Chris today. Greg has offered to facilitate a meeting with us and Peter and Erica to get their support in moving this forward. I think we should take him up on the offer asap. We need to get Shaun to have a conversation with Janet (or others) to get their attention on this and help us keep it moving sooner than later.
